Attached please find two forms titled:

"AUTHORIZATION FOR MEDICATION/PARENTAL CONSENT"
and
"AUTHORIZATION FOR SELF-ADMINISTERED MEDICATION/PARENTAL CONSENT"

Most often an antibiotic, etc. is prescribed to be taken two or three times daily. In most cases, the medication can be given when the child is at home.

One form is required to be filled out by you and your doctor whenever it is necessary for prescription medication to be administered at school. This applies to medication that is taken on a day-by-day basis or an antibiotic prescription that needs to be taken only temporarily. The second form is only for self-administered medications, such as asthma inhalers, Epi-pens, or insulin.

Non-prescription medications, such as Tylenol, etc., that your child needs during the school day may also be given by the school secretary. It must be brought to school in its original container along with a signed and dated Authorization for Medical/Parental Consent Form from you. The form must specify the dosage needed, the specific times, and other special instructions.
